## AROUND the TOWNSHIP

Niles Canyon picnic grounds and swimming pools were filled with holiday parties on the Fourth of July. Thousands spent the day in Southern Alameda playground in spite of the fact that no special program had been planned. Hundreds camped over-night for the three-day holiday.

There were no reports of accidents in this vicinity, in spite of the record-breaking traffic. R. L. Pond was the township's only casualty, suffering burns on the left forearm when a package of 50 small firecrackers exploded while he was lighting them. Some of the firecrackers fell down his sleeve blowing a hole in his coat. The injury was not serious.

Loren Marriott, president of the Centerville Lions Club, inherited another job along with that office. Upon his installation, members voted him "official mayor", until the town is incorporated. Marriott who asked for "new business" and is wondering how he is going to find time to crown queens, make speeches and lead parades in addition to official presidential duties and incidental tasks at the bank. The action resulted from a complaint by Deputy Coroner Dallas Paul who said he had been getting the "mayor's" mail.

Building construction in Washington Township on private and public structures, either actually begun or actually approved for work to start, or contemplated with a definite plan of fruition, now represents the huge sum of between \$300,000 and \$400,000.

More than \$200,000 of this total will be spent on township schools in the immediate future, before time for classes in the fall. More than this amount has been definitely appropriated through bond issues and federal government grants.

Further school improvements, a new Niles church and parsonage, sewage disposal system at Decoto, firehouses at Irvington and Newark, and private residences constitute the remaining sum.

Expenditures such as these cannot fail to make for improvement in general business conditions of this locality. It would appear that Old Man Depression, or his brother, O. M. Recession, is at last on the run.

There was a lot of baloney at last week's meeting of the Niles Rotary Club, according to reports of Edward Enos, program chairman. Taking a hint from a motto over C. W. Kraft's desk, "Make a profit—all the rest is baloney," the retiring president was presented with a huge bologna sausage.

Edwin F. Glassbrook of the Niles water office and Kathryn G. Bliss were extemporaneous attendants at the wedding of Albert C. Baca, Jr., 28, of Moffet Field, Santa Clara, and Miss Florence Elma Rickliff, 21, of San Antonio, Texas, Tuesday afternoon. The ceremony was performed by Judge J. A. Silva who transferred the nuptials to the water office in search of witnesses.

## More Support For Night Watchman In Centerville Urged

### HAIL, CALIFORNIA!

California's two Helens—Helen Wills Moody and Helen Jacobs—again have given the Wimbledon tennis championships an all-California finale, with Don Budge, "the unbeatable", completing the picture. And another Californian, Alice Marble, gave ground, only in the semi-finals, and only to one of the famous Helens.

In the sports world, the cry, once again, is "Hail, California!"

And here at home, we're champs again—and proud of it. Whether it's girls or oranges, ball players or tennis players, "Grown in California" is still a magic trade-mark!

### BUDGET TIME

While Californians ponder vacation budgets, budgets of another sort are also the order of the day from now until August 30.

So when Californians take to the beachlands and the mountains, they will not be forgotten back home. Their pocketbooks, and how much tariff they will bear, are matters now under scrutiny from county supervisors, in 57 counties, city councils in 279 cities, school trustees in more than three thousand school districts, local governing boards in hundreds of special districts. In other words, it's budget-making time, and Mr. and Mrs. Taxpayer again have a place in the sun, if they'll march up and grab it.

For no one can say, when the budget is adopted at last, that we had to take it and like it! Mr. and Mrs. Taxpayer are specifically provided by law with the chance to have their innings and score a hit for their side. The local spending program is published and made available to all. Public hearings must be held before the budget is finally adopted. There is the taxpayer's opportunity to score.

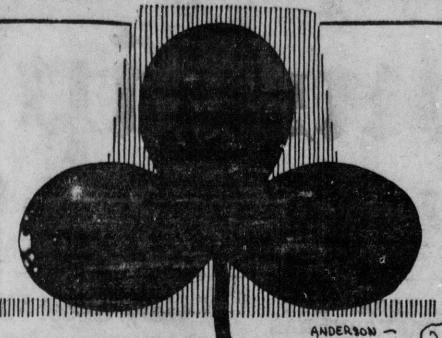

### INSURANCE MEN AT REGIONAL MEETING

# Freedom's FIRST LINE OF Defense

TRUE DEMOCRACY is impossible without an unrestricted exchange of opinion between the people and their public servants. The distinction between a free government and an autocracy lies in the right of all citizens to voice and print their own opinion, the right to oppose policies and candidates at the ballot box, the right to live their own lives and speak their own thoughts within the limits of constitutional law. Civil freedom in America was won for Americans at the price of battle, hardship, and bloodshed. To maintain it is the first duty of every American regardless of political conviction. Foremost among the barriers to dictatorship in our country is freedom of the press. American government will always remain a free government as long as the American press remains free from political coercion and censorship. You and your newspaper share equally in the responsibility of safeguarding American liberty. Support your newspaper—protect it—its welfare is your welfare—its freedom is your freedom.

\* This is the second of a series of twelve institutional advertisements sponsored by the California Newspaper Publishers Association and derived from an address delivered at Riverside on January 22nd by Dr. William B. Munro, of California Institute of Technology.

A FREE PEOPLE CANNOT EXIST WITHOUT A FREE PRESS!
